

# EVERYTHING CLEAR IN THE CLOUD? LET'S FIND OUT TOGETHER.

**Already using Azure Cloud but having difficulties with cost control, governance, compliance, security or integration? Or would you simply like to have your environment assessed by external specialists?**

No problem with the **Azure Check** from Trivadis! It gives you an overview of your Azure environment and **shows you any potential for optimisation, from governance right through to operation!**

## YOUR BENEFITS

With the Azure Check, you will find out:

- where there are any security gaps in your Cloud environment,
- not only how to keep your Cloud costs under control, but also how to optimise them,
- if and to what extent you are affected by shadow IT, and
- how to improve your resource organisation so that you can apply internal governance, compliance and security policies to Azure as well.

Our partner  **Microsoft**

# OUR OFFER

We put your existing Azure environment through its paces with the help of our self-developed framework «**Trivadis Azure Foundation**».

In 12 main and 60 sub-modules, we evaluate the areas of governance, core infrastructure and operations and suggest possible improvement measures to you.

At the end, you will receive:

a **documented overview** of your Azure environment, and

a **review report with a catalogue of measures** that will enable you to use the Cloud even more efficiently.

# OUR ASSETS

We are your strong Cloud partner because:

**1** **Satya Nadella, CEO of Microsoft, is excited about us.** He personally honoured us as a pioneer in the Cloud.

**2** **We know Azure inside and out.** We know which points need to be tweaked to gain the maximum benefit for you.

**3** **We offer you everything related to the Cloud:** from advice on solutions and platforms, operation, support and maintenance to resources and training. Like a Swiss Army Knife, but even better.

**4** **We have been working as data specialists since 1994.** With the cloud, we get everything out of your data.
