

TRANSITIONING TO AWS CLOUD? OR MAYBE ALREADY THERE?

We are here to help you get the most out of your databases.

Would you like to move your database to the AWS Cloud and are not sure which services fit your requirements? Or perhaps you would like to optimise your database operations on the AWS Cloud?

Your solution for both plans? The **AWS Database Service** from Trivadis.

YOUR BENEFITS

Migration

- Standardised and proven in-house approach,
- support through intelligent sizing and automation to ensure uptime, performance, disaster recovery and security at all times and
- cost savings.

Operation

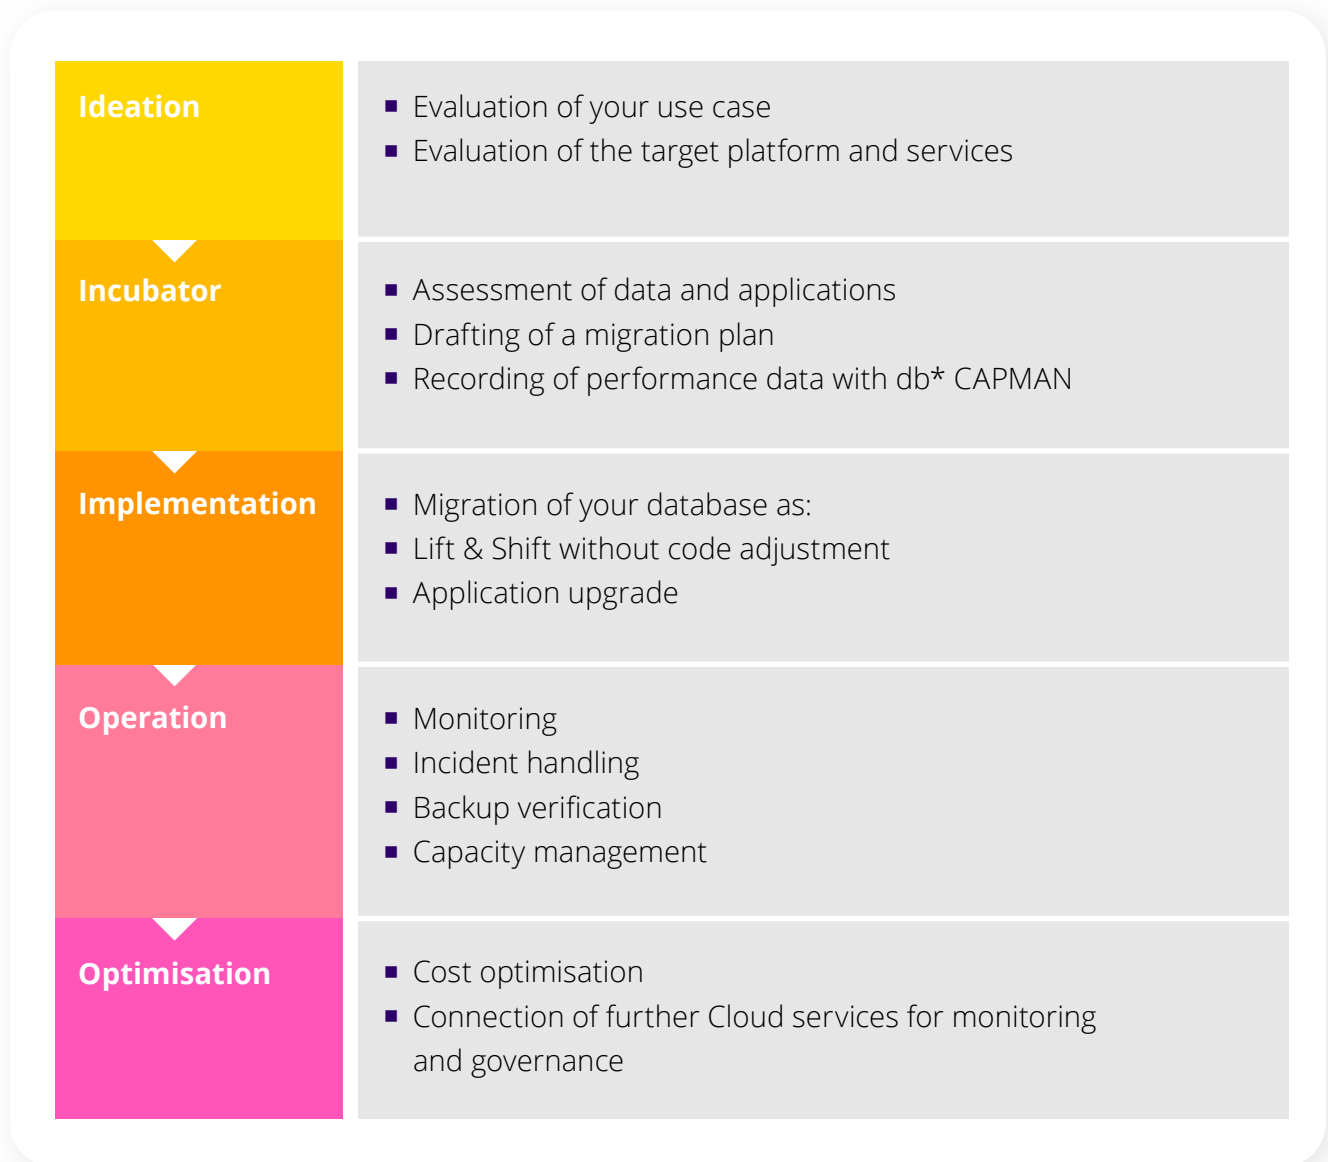

- High degree of automation that facilitates reliable back-ups and efficient operations,
- sophisticated in-house monitoring solution that outperforms the conventional AWS monitoring solution and
- easy deployment of a test environment or for disaster recovery purposes.

Our partner

OUR OFFER

We advise you on how to move your database to the Cloud and tap into its full potential. In this process, we use our specially developed «Triamant» approach, which combines our own best practices with those of AWS. Your benefits: Whatever stage you are in, you can get us involved at any time.

OUR ASSETS

We are your strong Cloud partner because:

1 **We are independent of Cloud providers.**
Your requirements and benefits are our top priority.

2 **We know AWS inside and out.**
We know which points need to be tweaked to gain the maximum benefit for you.

3 **We offer you everything related to the Cloud:** from advice on solutions and platforms, operation, support and maintenance to resources and training. Like a Swiss Army Knife, but even better.

4 **We have been working as data specialists since 1994.** With the cloud, we get everything out of your data.

MY NOTES

Any questions?

We look forward to hearing from you and shaping your Cloud Journey together!
